Strategies for Children and its signature Early Education for All Campaign work to ensure that Massachusetts invests the resources needed for all children, from birth to age five, to access high-quality early education programs that prepare them for success in school and life.

- We know there is fear, anxiety, worry, uncertainty, need for answers and accurate information and the commitment to best serve children and families.
- Before COVID-19, even at full enrollment the child care market was broken. The way the system is financed left too few children with access to high-quality early childhood settings, too many early childhood educators living on poverty-level wages, and too many programs one rent payment away from closing down.
- We know that our field is complex – with many funding streams – public and private dollars in the system.
- We know that programs are going to need flexible, stable additional funds to have a chance of making it in the new reality.

- We have a long road back. Things will be different as we return to a new reality.
- Hearing from you about real life, day-to-day challenges will help inform our advocacy and communication strategies and match up resources with needs.
- We will rely on the innovation, creativity and can-do attitude of the early education and care community.
- But that will not be enough.
- We will need to advocate together for additional resources and support.

Can you imagine yourself doing any of the following?

	YES	NO
Going down to City Hall to complain about a tax bill you think is too high?	_____	_____
Helping when your neighbor gets a confusing letter from Social Security, by making phone calls and dealing with the bureaucracy?	_____	_____
Making a presentation at a local community group about a project or a topic you care about and know well?	_____	_____
Testifying before a state legislative committee as part of a panel on a subject you know well and care about?	_____	_____

What words or images come to mind when you hear the word **advocacy**?

Who are the **key decision-makers** that impact a child's early education and development?

- Understand the different branches of government and the timeline and key dates at the local, state and federal level.
 - Legislation
 - Budget
 - Elections
- Be sure you know WHO you need to contact about WHAT – at what level are the decisions being made?
- Be aware of other hot topics that may be getting more attention and figure out how to connect to them...or not!
- Connect with groups and organizations who do this work in your state – you don't have to figure it out on your own.
- **Don't be intimidated by the process – YOU CAN DO IT.**

Children left off the census are missing for 10 years—almost an entire childhood

In 2010 in Massachusetts, the Census failed to count an estimated 20,000 young children ages 0 to 4.

- *Not realizing that all children should be counted*
- *Nervousness about listing all children*
- Multi-generational households
- Multi-family households
- Shared custody
- Newborns
