Strategies for Children Holds Event on Professional Development for Literacy

On Thursday, February 28, Strategies for Children is holding the second in its series of events, Leading the Conversation: Turning the Page for Reading Success. The topic is designing and implementing effective professional development to promote children’s literacy. The event will be held from 9:30 a.m. to noon at the Hogan Campus Center, One College Street, at the College of the Holy Cross in Worcester. Leading the Conversation is designed to help leaders and practitioners serving children from birth to age 9 implement the research-based recommendations in “Turning the Page: Refocusing Massachusetts for Reading Success.” Strategies for Children commissioned the report in 2010 from Nonie Lesaux, Ph.D., a nationally known literacy expert at the Harvard Graduate School of Education. The first event in the series focused on family engagement. Subsequent events will focus on program design, assessment and curriculum. Register online for the February 28 event.

Strategies for Children and its signature Early Education for All Campaign work to ensure that children in Massachusetts have access to high-quality early education and become proficient readers by the end of third grade.
